

THE BEST WAY TO MARKET LIKE A PRO IS TO PARTNER WITH ONE.

If you had access to global trends, weather patterns and currency fluctuations that could impact commodity prices, would you utilize them in your grain marketing efforts? The MarketPros at Cargill do. With ProPricing®, you can put their expertise to work for you.

PROPRICING AND HOW IT WORKS.

YOU

GET TOGETHER WITH A PROPRICING REP:

Decide what grain and how much of it to commit to ProPricing. Determine cost structure, length of contract and delivery schedule.

PERSONALIZED UPDATES:

ProCast webcasts, emails and cargillpropricing.com keep you constantly informed.

GRAIN IN CONTRACT IS PRICED:

At the end of the contract pricing period, your grain is 100 percent priced and reflected in your settlement payment once you deliver.

CARGILL

100%
CONTRACT ENDS

MARKETPROS MARKET GRAIN USING DATA:

Weather patterns, global economic changes, crop progress and other data points are all used to price enrolled grain daily.

SHARE PROGRESS:

Each week, Cargill details the ProPricing contract via emails, so you know how much has been priced and at what current market value.

PROPRICING PUTS THE PROS TO WORK FOR YOU

With ProPricing, the bushels in your grain contract are priced alongside Cargill's grain, regardless of the length of contract or how much you enroll. You get the benefit of having a professional use Cargill's network of data from around the world to help you price your grain.

BUILD A CONSISTENT GRAIN MARKETING PLAN

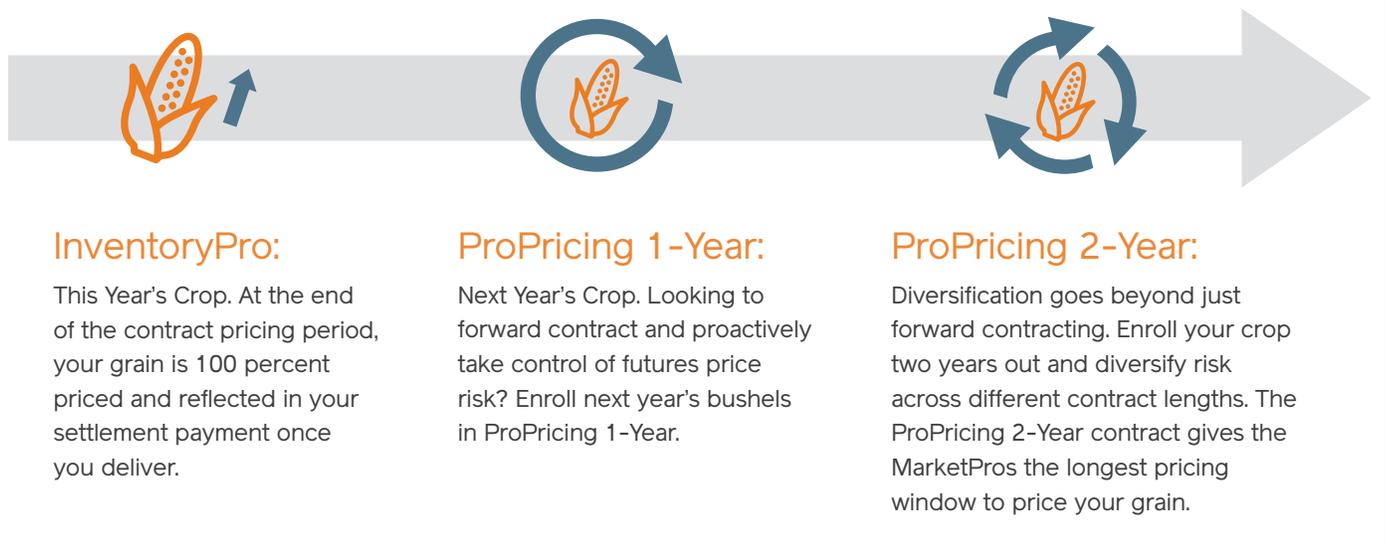

ProPricing was established two decades ago to give farmers a tool that consistently establishes a foundation to a grain marketing plan. Much like a retirement plan, the more years you enroll in ProPricing, and the more consistent you are with the percentage of production enrolled, the more opportunity you have to add value to your grain marketing plan.

STAY IN CONTROL OF YOUR GRAIN

While MarketPros help price the futures price component in the ProPricing contract, they are still your bushels. Each week, you'll receive an update outlining how the contract is performing, both in percent priced and current market values. This ensures you are up to date and have the best information to make decisions for your farm. And, of course, your local ProPricing rep will always be ready to answer questions and provide more detail about the contract's performance.

CONTRACT TYPES CREATED FOR YOU

Contract types are built to make sure there is a contract that works best for your operation.
